ABOUT ME

After nearly seven years of professional experience, I have decided to redirect my career path to continue learning and to contribute the expertise I have gained. I believe that embracing change is a testament to adaptability and growth. With this mindset, I am confident in my ability to bring value to any company I join.

EXPERIENCE

Front End Developer (web and mobile)

2023 - 2024

MOBIK

Web and Mobile Interface Development Specialist with expertise in React.js and React Native, leveraging technologies such as TypeScript, Redux, Styled Components, and Sass. Skilled in integrating REST and GraphQL APIs, collaborating closely with Node.js backend teams to deliver full-stack solutions. Proficient in design patterns like Reusable Components and Atomic Design, ensuring scalable and maintainable applications. Experienced in Agile Scrum methodologies and project management using Jira.

Front End Developer (web and mobile)

2023 - 2024

RABBIT

Specialized Developer in building modern applications using React.js, React Native, TypeScript, Redux, and Styled Components. Skilled in implementing design patterns such as Atomic Design and Modular Components. Experienced in collaborating with Node.js backend teams for API development and integration. Works effectively in agile environments following Scrum methodologies and utilizing Jira, ensuring high-quality deliverables aligned with business objectives.

Front End Developer

2023 - 2023

CITI VALUE

As a Frontend Developer with four years of experience, I have mastered the use of essential programming technologies and techniques. My experience with React.js has enabled me to design, develop, and maintain efficient and dynamic user interfaces for various web applications.

Front End Developer

2022 - 2023

GONET

As a Frontend Developer with four years of experience, I have gained solid expertise in a wide range of essential programming technologies and techniques. My in-depth knowledge of React.js has allowed me to build and maintain complex and efficient user interfaces for various web applications. With Redux, I have efficiently managed application state, enhancing both performance and user experience.

Front End Developer

2021 - 2022

ANZEN DIGITAL

I work as a consultant and continue my career as a Frontend Developer, primarily with the React framework. I translate the provided design mockups into code using tools like Figma, then implement the logic. By utilizing various React Hooks and combining them with Context API, I handle API consumption, mostly working with PHP and frameworks like Laravel.

Front End Developer

2018 - 2021

SMRI (SOCIEDAD MEXICANA DE RADIOLOGÍA)

I served as a Web Developer, primarily focusing on Frontend tasks, such as consuming internal APIs, creating modules, implementing updates, providing support, and enhancing the website. I built accessible user interfaces using core technologies like JavaScript, HTML, and CSS, along with frameworks such as Bootstrap, React.js, and jQuery. Additionally, I contributed to Backend development using PHP and MySQL.

EDUCATION

ON LINE

NOW:

Online Courses on platforms such as Udemy, YouTube, and participation in various development groups and communities.

CUDEC

2016

Conalep 161

2012

COMPUTER SYSTEMS ENGINEERING

Multicultural University CUDEC, Trunco

TECHNOLOGICAL BACCALAUREATE

Certified in Technological Baccalaureate in Computer Equipment Maintenance and Digital Control.

LANGUAGES AND FRAMEWORKS

HTML

CSS

Frameworks CSS
(Bootstrap, Materialize CSS, Tailwind CSS, Material UI)
